A LEGACY ROOTED IN NATURE AND FAMILY

1976

Founded on family entrepreneurship.
Born from the entrepreneurial spirit of the Tavares family in wood trading and sawmilling, Ribadao grew rapidly through a national distributor network: Ribamondego, Ribadiz, Ribalva and Ribacentro.

1997

Expansion into Africa.
With an industrial facility in Kinshasa, D.R. Congo, Ribacongo SPRL was founded to manage about 800,000 ha of forest, securing unique species such as wenge, iroko and sapelli for our factories in Portugal.

1998

Closer to Madeira.
Continuing to expand its commercial network, Ribadao opened a distribution center on Madeira Island to better serve the needs of its local customers.

2003

ISO 9001 certified.
Certification under ISO 9001:2000 reinforced our commitment to continuous improvement, with quality standards designed to exceed customer expectations and keep the organization competitive.

2009

Exotic Skins – Natural Wood Flooring.
A new brand strategy introduced a unique collection of exotic flooring from South America and Africa for national and international markets.

2010

Arriving in the USA.
Ribadao Lumber & Flooring LLC USA establishes its headquarters in Miami, Florida, advancing the company's internationalization and its presence in the North American market.

2021

A new industrial era.
Ribadao opens a new 22,000 m² industrial unit in Portugal, equipped with the latest technology for the production of multilayer flooring.

EUROPEAN OAK · FRANCE

The Rio Collection is crafted from European oak, an iconic wood sourced from sustainable forests in France.

Known for its durability and impressive dimensional stability, this oak is meticulously selected to ensure that only the finest specimens are used.

Our wood undergoes rigorous quality control processes to maintain its structural integrity.
